```
Filesystem initialized!
/ (D)
Enter command (Enter Ctrl+C to exit): pwd
Function still being made
Current working directory: /
Enter command (Enter Ctrl+C to exit): rmdir baddir
rmdir: failed to remove 'baddir': No such file or directory
Enter command (Enter Ctrl+C to exit): ls
No files or directories found.
Enter command (Enter Ctrl+C to exit): mkdir hello
Enter command (Enter Ctrl+C to exit): ls
hello (D)
Enter command (Enter Ctrl+C to exit): cd hello
Enter command (Enter Ctrl+C to exit): creat hello.txt
Enter command (Enter Ctrl+C to exit): ls
hello.txt (F)
Enter command (Enter Ctrl+C to exit): cd
Enter command (Enter Ctrl+C to exit): ls
hello (D)
Enter command (Enter Ctrl+C to exit): rmdir hello.txt
rmdir: failed to remove 'hello.txt': No such file or directory
Enter command (Enter Ctrl+C to exit): mkdir hello
mkdir: cannot create directory 'hello': File exists
Enter command (Enter Ctrl+C to exit): cd hello
Enter command (Enter Ctrl+C to exit): mkdir world
Enter command (Enter Ctrl+C to exit): ls
hello.txt (F)
world (D)
Enter command (Enter Ctrl+C to exit): rm world
rm: cannot remove 'world': Is a directory
Enter command (Enter Ctrl+C to exit): rmdir world
Enter command (Enter Ctrl+C to exit): ls
hello.txt (F)
Enter command (Enter Ctrl+C to exit): cd ..
Enter command (Enter Ctrl+C to exit): rmdir hello
rmdir: failed to remove 'hello': Directory not empty
Enter command (Enter Ctrl+C to exit): create hello.txt
The command create could not be found.
Enter command (Enter Ctrl+C to exit): quit
Exiting filesystem. Goodbye!
